THE SILENT FORCE

La natura si riprende i propri spazi, come certe piante che emergono sui marciapiedi o sulle vecchie mura.

Se non più molestate dall'incessante azione umana, dilagano.

Come in un contenzioso perenne, mai risolto, la natura è lì a sfidarci.

Una città, se improvvisamente abbandonata, dopo qualche decennio la ritroveremmo completamente invasa dagli elementi.

Scene che dovrebbero far riflettere, perché questo pianeta non appartiene soltanto a noi umani.

È un fenomeno che rappresenta un messaggio di speranza per il futuro e, nel contempo, lo stimolo per un maggior rispetto ed una maggior cura nei confronti dell'ambiente.

Nature is taking its spaces back, just as certain plants emerging on pavements or on old walls do.

If no longer harassed by incessant human action, they spread like wildfire.

As in a perennial dispute that is never resolved, nature is there to challenge us.

If a city were suddenly abandoned, it would find itself completely overrun in few decades.

Scenes that should give us food for thought, since this planet does not belong to us humans alone.

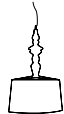

A phenomenon that holds a message of hope for the future, at the same time championing greater respect and more care for the environment.

EDMONDO TESTAGUZZA

"Questo lavoro è la mia grande passione: mi ha dato l'opportunità di ricercare affinché potessi creare la suggestione attraverso l'uso delle forme, della materia e della divina luce. Penso al bello come fine ultimo perché solo la sana bellezza mi appaga totalmente. Ho conosciuto persone appassionate che hanno condiviso con me parte di questo percorso. Persone dalle quali ho appreso molto. Forse è questo il dono più grande."

"My work is my passion. It's given me the opportunity to study and create inspiration from form, matter, and divine light. I see beauty as the end goal because only beauty that does good satisfies me. I've met passionate people who've joined me on this journey. People from whom I've learned a lot. Perhaps they are my greatest gift."

MATTEO UGOLINI

"Ogni mio progetto di luce vuole essere un racconto che non ha bisogno di essere narrato con parole. Osservandolo deve fare riemergere un ricordo, un'emozione, anche se diversa dalla mia. La mente non crea nulla che non sia stato vissuto. E' uno scrigno che racchiude forme, colori, esperienze visive fatte nel corso della propria esistenza. E le mie creazioni non sono altro che specchio delle mie."

"Every single lighting project hopes to tell a story without words. Admiring my designs should trigger a memory or an emotion, even if different from my own. The mind does not create anything that it has not already experienced. It is a treasure-chest of shapes, colours, and visual experiences collected throughout its existence. And my creations are nothing more than a mirror of mine."

PAOLA NAVONE

"La magia della luce e la trasparenza del vetro, la sua essenza naturale e la sua storia millenaria. Quando contiene la luce il vetro si anima, diventa espressivo, raccontando in modi sempre diversi la sua cangiante bellezza."

"The magic of light and the transparency of glass, its natural essence and its age-old history. When gifted light, glass comes alive and becomes expressive, exuding its iridescent beauty in infinite ways."

LUCA DE BONA & DARIO DE MEO

"Ci piace da sempre definire il nostro metodo progettuale come un Hic et nunc. Questa locuzione latina rappresenta appieno il nostro approccio che non segue regole precise, ma è figlio del momento, rispecchia uno stato d'animo, la condizione sociale, l'attualità del presente inteso come fotogramma istantaneo, tensione al futuro e nostalgia del passato."

"We like to define our method as hic et nunc. This Latin phrase encapsulates our approach. We don't follow a strict set of rules; our approach is a product of its time. It reflects a state of mind, a social condition, and the present moment understood as a snapshot in time, a push towards the future, and the pull of nostalgia."

MARC SADLER

"La progettazione nel settore dell'illuminotecnica è al top quando mi è permesso dare riconoscibilità estetica alla luce senza dimenticare la razionalità intrinseca dei prodotti, che devono essere efficienti in funzione e belli anche quando spenti. Per arrivarci serve un tandem di professionalità, divertente ed efficace allo stesso tempo."

"The lighting sector is at its best when it allows me to inject aesthetic identifiability into my designs without forgetting the importance of intrinsic rationality. The products we design must be functional and beautiful, even when switched off. Achieving this balance requires professionalism that is both fun and functional at the same time."

BALDESSARI E BALDESSARI

"Ci piace un design sobrio, non "chiassoso", se ci riesce "elegante", che duri nel tempo. Ci piace esprimerci con materiali naturali che coniugano la tradizione con la contemporaneità, tenendo alta la nostra curiosità, per cercare di tessere un filo continuo che ci permetta più sguardi possibili."

"We prefer understated design over "noise". Design should be "elegant" and stand the test of time. We like to express ourselves with natural materials that combine tradition and modernity, piquing our interest, in an attempt to weave an uninterrupted thread that gifts us as many glances as possible."

GIORGIO BISCARO

Un allievo domandò al suo maestro: "Come posso diventare un bravo designer?"
Lui rispose: "Quanto è comoda una sedia quando nessuno vi é seduto?"

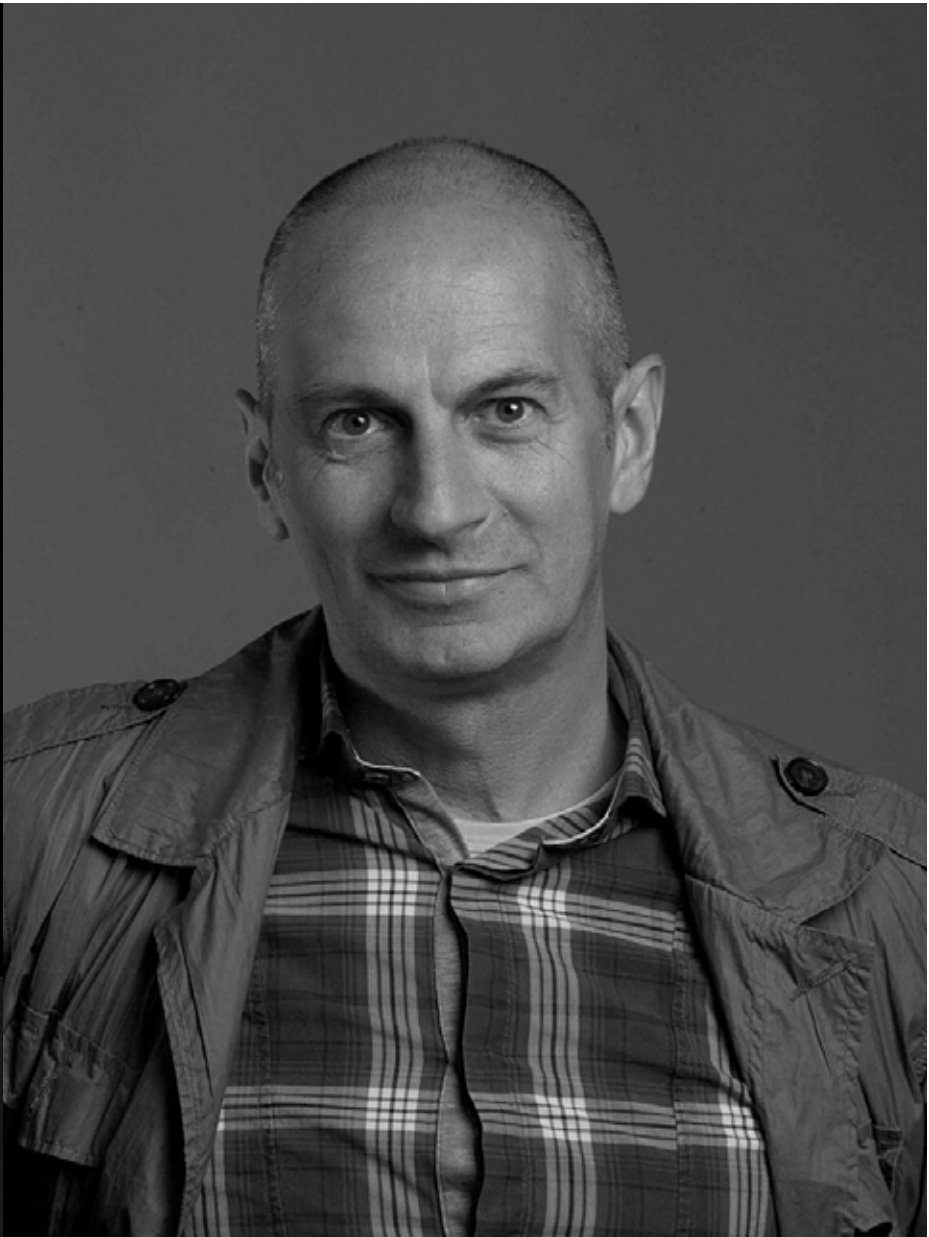

*A student asked his Master "How can I become a good designer?"
The Master answered "How much comfortable a chair is, when no one is seated on it?"*

STEFANO BIZZARRI & CLAUDIO CINTI

"Parliamo di "ispirazione olistica", per cui ogni nostro progetto è identificato come unità multidimensionale, come fusione dei sistemi di riferimento: passato, presente e futuro, ovvero sintesi perfetta di esperienza e vissuto, di ricerca e sperimentazione, unite ad una predisposizione all'innovazione. Il progetto come un unicuum, come un intero che racchiude l'essenza del tempo."

"We focus on holistic inspiration. All of our projects are intended as multi-dimensional units, as the coming together of different points of reference from the past, present, and future. Our projects are the perfect combination of experience, research, innovation, and a life lived. Our designs are unique and encapsulate the essence of time. "

ROCCO ESTE

La luce incontrando le tenebre, parafrasando Goethe, genera colori. La luce, in tutte le sue connotazioni, ci circonda. Penso sia la cosa più naturale dedicarle il mio lavoro, la mia arte. La luce, innanzitutto, merita rispetto. Voglio che essa sia la vera protagonista nella sua semplicità. Plasmare e donare la linearità e la pulizia che le appartengono. La luce diventa, finalmente, parte integrante dell'architettura. Pilastro di ogni nostra creazione.

To paraphrase Goethe, by meeting darkness, light produces colour. Light in all its forms is all around us. I think it is the most natural thing in the world to dedicate my work, my art, to light. First and foremost, light deserves respect. I want it to be the true focal point, in all its simplicity. To mould it and give it the linearity and cleanness that belong to it. Finally, light has become an integral part of architecture. A mainstay of everything we create.

Materiale anticonformista che preserva l'eleganza e la classe di un lampadario di cristallo, così come la principessa del Galles, di alto lignaggio ma dai modi semplici e sinceri.

La forma del diffusore è un corpo di vetroresina bianca che esalta la silhouette della collezione da cui nella versione sospensione pendono gocce di cristallo.

La versione da terra non ha i pendagli in cristallo e si sposta grazie ad un anello sulla cima del diffusore.

A hanging lamp in a unconventional material that retains all the elegance and class of a crystal chandelier, just like the Princess of Wales, of high lineage but with a simple, sincere demeanour.

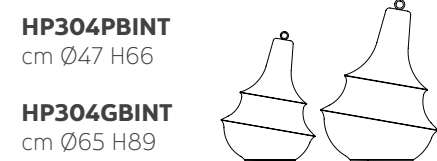

The white fiberglass diffuser shape enhances the collection silhouette from which crystal drops hang in the pendant version.

The floor version, without the crystal drops, can be moved thanks to a ring on the top of the diffuser.

Dopo Stant, prosegue la mia personale ricerca finalizzata alla definizione di una dimensione poetica, nel contesto delle tecnologie dei sistemi d'illuminazione: la bellezza insita nella meccanica della macchina strutturale e la sottile tensione che si avverte lungo i filanti e brillanti profili in alluminio ne sono dimostrazione.

È un'estetica del costruire per pura sottrazione.

L'idea di una luce liberata da vincoli di ogni sorta: pura, essenziale, estremamente funzionale, in grado di articolarsi liberamente nello spazio.

After Stant, my personal research aimed at defining a poetic dimension continues, in the context of light system technologies: the beauty inherent in the mechanics of the structural machine and the subtle tension perceivable along the wires and the shiny aluminum profiles are proof of this.

It is an aesthetic of construction by pure subtraction.

The idea of a light freed from all kinds of constraints: pure, essential, extremely functional, and able to articulate itself freely in the space.

A OGNI SINGOLO FILO D'ERBA
È DESTINATA ALMENO UNA GOCCIA DI RUGIADA.

(PROVERBIO CINESE)

Un filo d'erba con una goccia di rugiada, una sfera riflettente in perfetto equilibrio sulla sommità.

Il filo d'erba oscilla al vento, ma la goccia resta al suo posto: questa l'ispirazione di Matteo Ugolini per la lampada outdoor/indoor da terra "Atmosphere", semplicemente soffermandosi a osservare i fenomeni della natura.

FOR EACH BLADE OF GRASS
THERE IS AT LEAST ONE DROP OF DEW.

(CHINESE PROVERB)

A blade of grass with a drop of dew, a reflective sphere perfectly balanced on the top.

The blade of grass sways in the wind, but the dewdrop remains in place. This is Matteo Ugolini's inspiration for the "Atmosphere" outdoor/indoor floor lamp: simply stopping to watch the wonders of nature.

The blade of grass, of different heights, is a knurled metal bar painted white, resting on a square metal base, while the dewdrop is a luminous spherical element in PVC.

TURN IT

design rocco este

E' la luce la sola protagonista della collezione Turn it, per favorire la massima integrazione della luce nell'architettura e nello spazio.

Una lama affilata, una linea unificante.

Un raggio sospeso a legare le pareti in un connubio.

Ogni profilo porta e avvolge la lineare barra luminosa strip led. Grazie a un meccanismo semplice e intuitivo, la barra, ruotando sue due perni alle estremità nella versione a parete, disegna differenti configurazioni di luce, diretta o riflessa, nello spazio.

Light is the only protagonist of the Turn It collection, promoting a seamless integration of light in architecture and space.

A sharp blade, a joining line. A suspended beam, bonding the walls.

Every profile carries and surrounds the strip LED linear light bar. With a simple, intuitive mechanism, the bar rotates onto two end pivots, in the wall-mounted version, and draws different direct or reflected light configurations in the surrounding space.

SIBILLA

design debonademeo

Sibilla, la voce della luce.

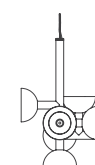

Per mezzo di un frame sospeso che anima lo spazio con l'audacia espressiva di un tratto grafico di ispirazione De Stijl, i flussi luminosi vengono incanalati come onde sonore e distribuiti in tutte le direzioni.

Sibilla, the voice of light.

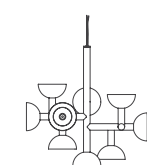

Evoking the myth of the sibyls, who were famously interrogated to elicit prophecies, this light was designed as if it were sound travelling through space, making its radiant voice heard as it exudes a sense of both poeticism and practicality.

Cell

design matteo ugolini

Oltre duemila anni fa in Cina prendevano il volo le prime lanterne nel cielo. Cell ne ricalca la struttura e lo spirito, serrando l'aria con un sottile filo metallico.

Over two thousand years ago in China, the very first lanterns took to the sky. Cell emulates their structure and their spirit, tying the air tight with a thin metal wire.

Piccole sfere di vetro soffiato, ancorate alla struttura metallica a parallelepipedo, rimandano ad un'attività ludica e allo scorrere delle palline sul pallottoliere.

Little spheres of blown glass, secured to a rectangular metal frame, a reference to games, reminiscent of beads sliding along an abacus.

Un caldo pomeriggio di mezza estate, Sassocorvaro uno dei tanti magici borghi italiani e il suo fiume. Risveglio di rumori, profumi, grida felici e di quelle spensierate giornate passate con gli amici a giocare tra lo scorrere dell'acqua e quelle buffe e tanto decorative piante acquatiche.

A warm mid-summer afternoon in Sassocorvaro – one of the many magical Italian villages – and its river. The awakening of sounds, scents, happy shouts and carefree days spent playing with friends, between the running water and those funny ornamental water plants.
