

**tomorrow**

new lighting atmospheres

**collection 2020**

Cattaneo, forte dei suoi quarant'anni di storia nel mondo dell'illuminazione, si racconta attraverso un rinnovato approccio comunicativo e una collezione di prodotti capaci non solo di illuminare gli ambienti, ma di generare nuove atmosfere.

Non una trasformazione, ma un'evoluzione basata sulla consapevolezza dei propri caratteri di unicità: valori autentici, che dall'azienda familiare, sono maturati in una realtà aziendale d'avanguardia, che desidera dare la propria personalissima risposta al presente evidenziando una predisposizione tecnologica al futuro.

La passione artigianale e la ricerca tecnologica generano corpi illuminanti che sono il connubio di dettagli perfetti. Ogni lampada è frutto di un processo creativo che fonde progettazione e ricerca generando oggetti di forte impatto estetico, capaci di rispondere alle esigenze funzionali e relazionarsi con l'utilizzatore dal punto di vista empatico e sensoriale.

Il concetto di made in Italy, oltre ad offrire cura artigianale e innovazione tecnologica, evolve in life style: i prodotti Cattaneo diventano strumento indispensabile nella progettazione degli spazi e promettono di emozionare attraverso il design della luce.

Cattaneo, with its forty years' experience in the lighting business, describes itself by means of a renovated communicative approach and a collection of products able to lighten spaces as well as giving birth to new atmospheres.

Not a transformation, but an evolution based on the awareness of its own peculiarities: genuine values that from a family business have grown wiser into a leading edge business institution, willing to give its own and personal answer to the present, outlining a real technological talent for future.

Artisan passion and technological research give birth to light fittings that represent the union of perfect details. Each light is the result of a creative process that blends design and research, creating objects with a strong aesthetical effect, able to respond to functional requirements and to relate themselves with the end user from an emphatic and sensory point of view.

The concept of Made in Italy does not simply mean artisan care and technological innovation, but evolves into "life style": Cattaneo products become the essential instrument to design spaces; their shaping of the light vows to get people emotional.

Cattaneo, mit seiner vierzigjährigen Geschichte in der Welt der Beleuchtung, erzählt seine Geschichte durch einen erneuerten kommunikativen Ansatz und eine Sammlung von Produkten, die nicht nur die Räume beleuchten, sondern auch neue Atmosphären erzeugen können.

Keine Transformation, sondern eine Evolution, die auf dem Bewusstsein der eigenen Eigenschaften der Einzigartigkeit basiert: authentische Werte, die aus dem Familienunternehmen stammen, sind zu einer avantgardistischen Geschäftsrealität gereift, die der Gegenwart ihre ganz persönliche Antwort geben will und eine technologische Prädisposition für die Zukunft aufzeigt.

Die Leidenschaft für Handwerk und technologische Forschung erzeugt Leuchten, die die Kombination perfekter Details sind. Jede Lampe ist das Ergebnis eines kreativen Prozesses, der Design und Forschung verbindet, Objekte mit starker ästhetischer Wirkung erzeugt, in der Lage ist, auf funktionale Bedürfnisse zu reagieren und sich aus einfühlsamer und sensorischer Sicht mit dem Benutzer zu befassen.

Das Konzept von Made in Italy entwickelt sich neben handwerklichem Können und technologischer Innovation auch zum Lifestyle: Cattaneo-Produkte werden zu einem unverzichtbaren Werkzeug bei der Gestaltung von Räumen und versprechen, durch die Gestaltung von Licht zu begeistern.

# Easy System

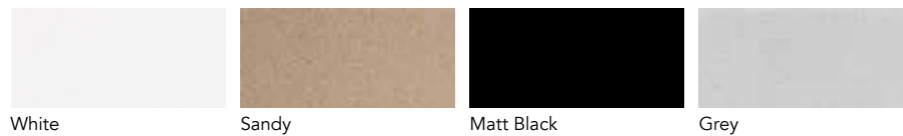

design by C. Cattaneo

Sistema a sospensione personalizzabile. Grazie alla sua struttura il sistema Easy System ti permette di raggiungere luoghi d'illuminazione lontani dal tuo punto luce creando piacevoli installazioni.

Suspended system that can be customised. Thanks to its peculiar structure, Easy System makes it possible to bring light away from light sources, creating nice installations.

Flexibles System von Hängelampen, das einfach an persönliche Bedürfnisse angepasst werden kann. Die Struktur des Easy System bietet die Möglichkeit, das Licht weit weg vom Stromverteiler zu tragen und faszinierende Installationsformen zu kreieren.

# Waterfalls

design by C. Cattaneo

Serie di moduli led disponibili singolarmente per poter personalizzare la propria lampada. Adatta in ambienti moderni che vogliono valorizzare "l'oggetto luce". E' composta da diffusori in vetro termoresistenti montate su varie strutture a scelta.

Series of led modules that can be purchased individually to customise your own lamp. Suitable for modern interiors in which light is emphasized as an object. It consists of heat-resistant glass diffusers to be fitted on a wide range of bases.

Eine Serie auch einzeln erhaeltlicher Led Modulen geben die Moeglichkeit, die eigene Lampe nach eigener persoenlicher Vorstellung als Lichtobjekt zu gestalten. Ist hergestellt aus hitzebestaendigen Glas, montiert auf diversen Strukturen, welche ausgewaehlt werden koennen.

Transparent Satin

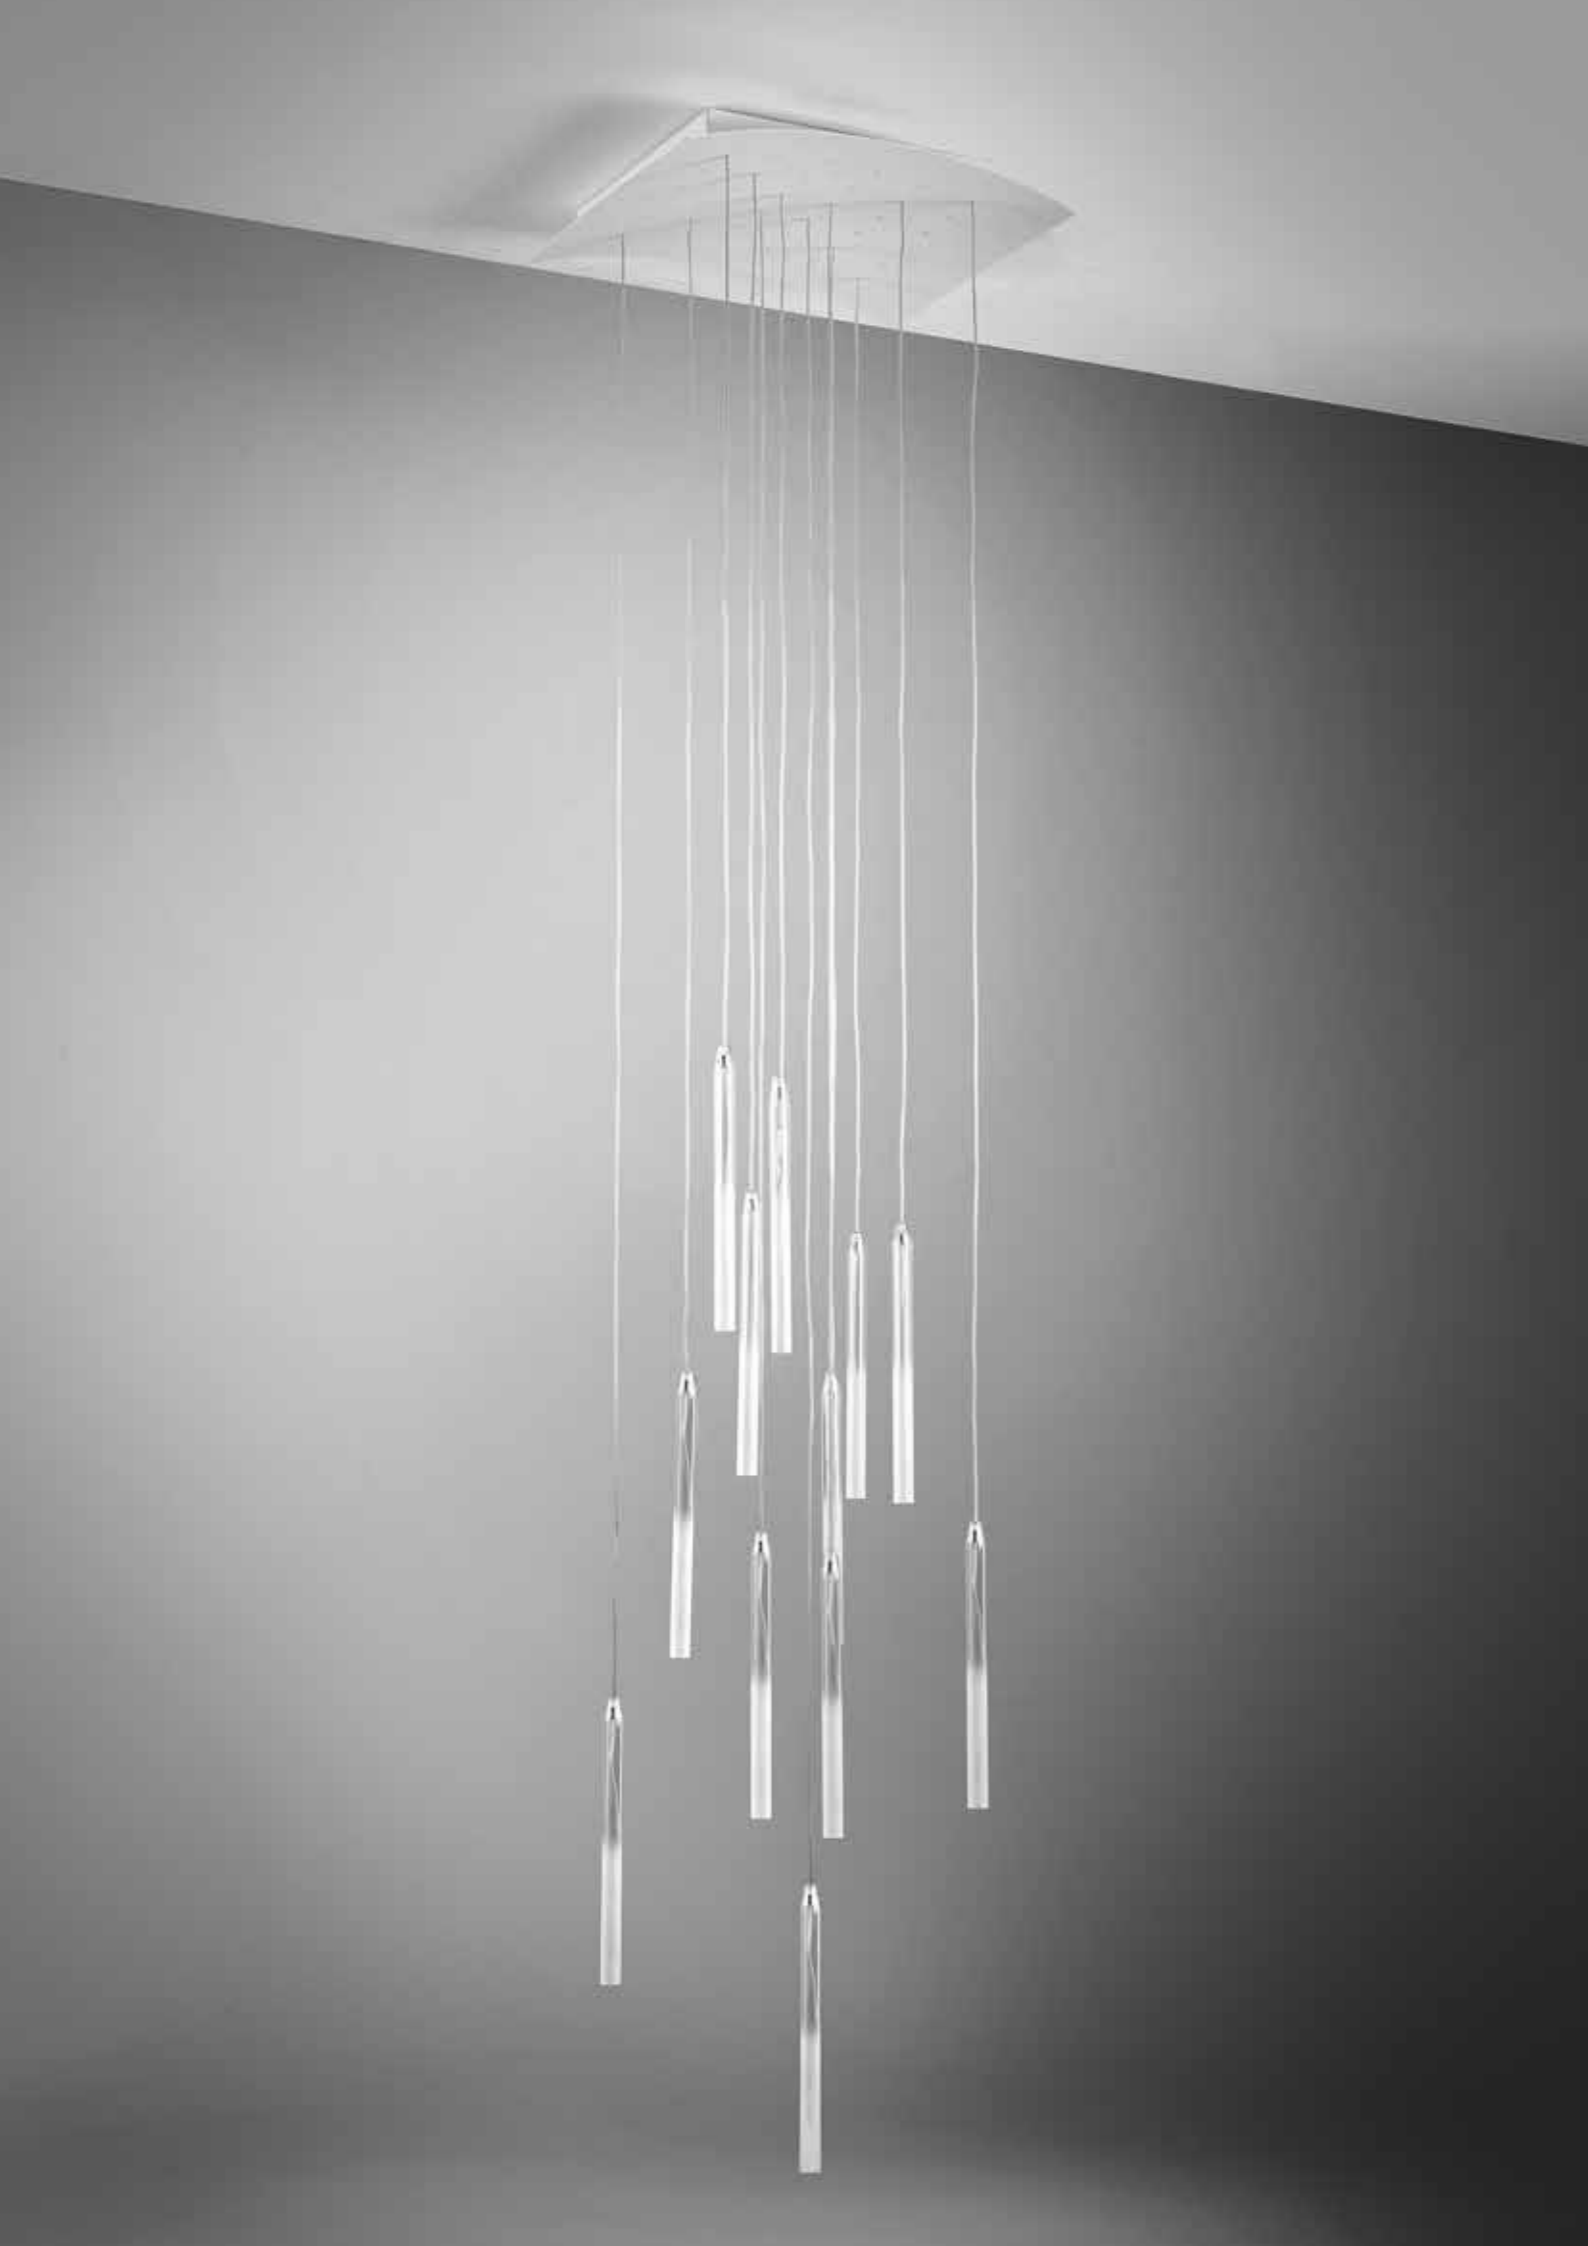

**Customised lamp composed of:**

B151/29 + 6 pcs M151 + D151/7

# Heron

design by C. Cattaneo

Una lama di luce crea suggestive scenografie. Le varie tipologie: sospensione, applique e plafone, permettono ad Heron di essere versatile nell'installazione e essere un vero e proprio oggetto di design.

A blade of light creates suggestive scenographies. The various types: suspension, wall lamp and ceiling lamp, allow Heron to be versatile in the installation and be a real object of design.

Eine Lichtscheibe erzeugt suggestive Szenografien. Die verschiedenen Typen: Pendelleuchte, Wand- und Deckenleuchte, ermöglichen es Heron, vielseitig in der Installation zu sein und ein echtes Designobjekt zu sein.

# Dinamica

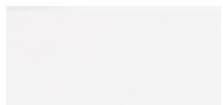

design by Eaproject

Un disco leggero e compatto ritmato al suo interno da un sistema di linee concentriche che, oltre a trasportare la luce, definiscono un effetto visivo di moto perpetuo. Dinamica è una collezione di lampade circolari proposta in tre dimensioni, contraddistinta dalla totale assenza di angoli e di linee spezzate. Queste caratteristiche essenziali, consentendo una percezione sempre fluida nello spazio, definiscono un design senza tempo adattabile perfettamente ai contesti domestici e ideale per le configurazioni contract.

A light and compact disc characterised by a system of concentric lines within it, that not only carry the light, but also define a visual effect of a never-ending motion. Dinamica is a range of round lights available in three different sizes, marked by a complete lack of angles or fragmented lines. These essential characteristics allow an always fluid space perception and define a timeless design perfectly suitable for household context and ideal for custom-made compositions.

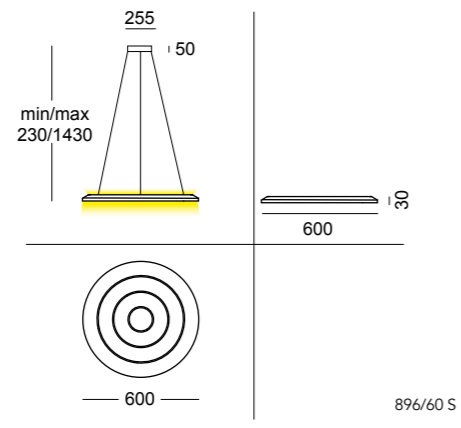

Eine leichte und kompakte Scheibe mit einem System von konzentrischen Linien, die nicht nur Licht tragen, sondern auch einen visuellen Effekt der ständigen Bewegung definieren. Dinamica ist eine Sammlung von ringförmigen Lampen, die in drei Dimensionen angeboten werden, die sich durch die völlige Abwesenheit von Winkeln und unterbrochenen Linien auszeichnen. Diese wesentlichen Eigenschaften, die eine fließende Wahrnehmung im Raum ermöglichen, definieren ein zeitloses Design, das sich perfekt an den häuslichen Kontext anpasst und sich ideal für Vertragskonfigurationen eignet.

# Well

design by C. Cattaneo

La luce è movimento: dall'alba al crepuscolo l'universo si trasforma in configurazioni luminose sempre diverse a seconda degli orari del giorno. Well è in grado di modificare la luce emessa grazie ad un semplice gesto che trasforma il suo fascio da diretto a indiretto, modificando la percezione dello spazio circostante e adattando il tipo di luce a specifici bisogni. Un cilindro principale con funzione diffondente e un cilindro inferiore che contiene la sorgente led, sono le componenti essenziali di questa lampada che appare come un lucernario all'interno degli ambienti, adattandosi con naturalezza alle più svariate esigenze di utilizzo.

Light is movement: from sunrise to sunset the universe turns into always different luminous configurations depending on the time of the day. Well is able to adjust the light released thanks to a simple gesture that converts its beam of light from direct to indirect, modifying the sense of the surrounding space and adjusting the light to specific needs. A main cylinder with a diffusing function and a lower cylinder holding the LED source are the essential components of this light that appears as a skylight in an environment, masterly complying with the most varied needs.

Licht ist Bewegung: Von morgens bis abends verwandelt sich das Universum in leuchtende Konfigurationen, die je nach Tageszeit immer unterschiedlich sind. Well ist in der Lage, das ausgestrahlte Licht durch eine einfache Geste zu verändern, die seinen Strahl von direkt auf indirekt umwandelt, die Wahrnehmung des umgebenden Raumes verändert und die Art des Lichts an die spezifischen Bedürfnisse anpasst. Ein Hauptzylinder mit Diffusionsfunktion und ein unterer Zylinder mit der LED-Quelle sind die folgenden wesentliche Bestandteile dieser Lampe, die wie ein Oberlicht in den Räumen aussieht und sich natürlich an die unterschiedlichsten Nutzungsbedürfnisse anpasst.

# Thesis

design by Perlage

Una forma arcuata come una parentesi è il segno che contraddistingue Thesis: una lampada essenziale, ma dal forte carattere, proposta in due dimensioni. Un innovativo sistema di connessione permette di abbinare due o più moduli per creare infinite combinazioni. Le geometrie pure che la compongono, enfatizzate da un'efficiente sorgente a luce indiretta, consentono un agevole utilizzo sia a parete che a soffitto. L'estrema versatilità unita alla forma scultorea rendono Thesis protagonista degli ambienti sia da accesa che da spenta.

An arcuate shape as much as a parenthesis is the characteristic of Thesis: an essential light with a strong personality, available in two sizes. An innovative connection system enables to combine together two or more modules, creating endless combinations. Its pure geometries are emphasized thanks to a wise use of indirect light, allowing a simple installation either on the ceiling or onto the wall. The exceptional versatility combined with the sculpted shape make Thesis become the protagonist of the environment either turned on or off.

Eine geschwungene Form wie eine Klammer ist das Zeichen, das Thesis auszeichnet: eine essentielle Lampe, aber mit einem starken Charakter, vorgeschlagen in zwei Dimensionen. Ein innovatives Verbindungssystem ermöglicht die Kombination von zwei oder mehreren Modulen zu unendlichen Kombinationen. Die reinen Geometrien, die es bilden, werden durch eine effiziente indirekte Lichtquelle betont und ermöglichen einen einfachen

Einsatz sowohl an der Wand als auch an der Decke. Die extreme Vielseitigkeit in Kombination mit der skulpturalen Form machen Thesis zum Protagonisten sowohl in On- als auch in Off-Umgebungen

# Kami

design by C. Cattaneo

Un gesto che ricorda la cultura orientale degli origami e che ne diventa espressione contemporanea. Attraverso un'unica piegatura e un taglio diagonale sapientemente disegnato, Kami è in grado di celare la fonte luminosa per lasciare spazio ad una sfumatura di luce che diventa così la vera protagonista di questo prodotto scultoreo. La doppia cromia tra esterno ed interno enfatizza l'effetto luminoso e rende la lampada personalizzabile e adattabile a qualsiasi ambiente. La collezione, composta da lampade a sospensione disponibili in due dimensioni, è completata da una versione a parete.

A gesture reminding the Eastern culture of the origami, becoming its contemporary expression. Thanks to its unique bending and its wisely designed diagonal cut, Kami is able to conceal the light source leaving space to hues of light: real protagonists of this sculpted product. The double tone between inside and outside emphasises the luminous effect. In this way the light can be customized, becoming suitable for any environment. The collection, made up of pendant lights available in two sizes, is integrated by a wall variation.

Eine Geste, die an die orientalische Kultur des Origami erinnert und zu seinem zeitgenössischen Ausdruck wird. Durch eine einzige Falte und einen raffiniert gestalteten Schrägschnitt kann Kami die Lichtquelle verstecken, um Platz für eine Lichtnuance zu schaffen, die zum eigentlichen Protagonisten dieses skulpturalen Produkts wird. Die doppelte Farbgebung zwischen Außen und Innen unterstreicht die Lichtwirkung und macht die Leuchte anpassbar und anpassungsfähig an jede Umgebung. Die Kollektion, bestehend aus Pendelleuchten in zwei Größen, wird durch eine Wandversion ergänzt.

# Volvit

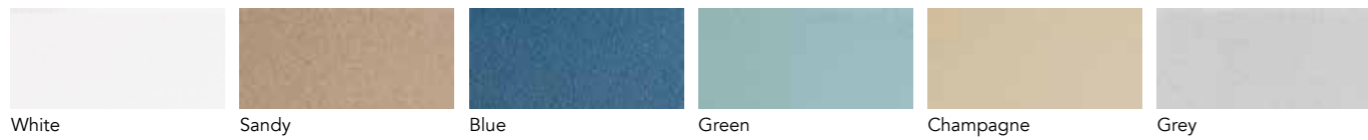

design C. Cattaneo

Un foglio di metallo che avvolge un diffusore opalino sono le componenti essenziali di questo prodotto. Un'applicazione minimale, ma allo stesso tempo sofisticata, dove il cuore luminoso viene celato e custodito per essere rivelato solo quando viene accesa. Le varianti colore e le due dimensioni in cui viene proposta, trasformano Volvit in un segno grafico capace di donare dinamismo alle pareti domestiche e non, rendendola adatta sia agli spazi contemporanei che agli ambienti più classici.

A sheet of metal enclosing an opaline diffuser. These are the essential components of this product. A minimal, but at the same time sophisticated wall light, in which the luminous heart remains concealed and shield to be revealed only once the light turned on. The available finishes and sizes turn Volvit into a graphic sign able to offer dynamism to the household and not just that, making it suitable for both contemporary and classical environments.

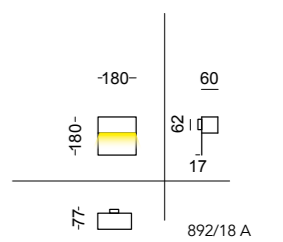

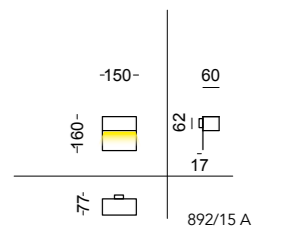

Ein Metallblech, das sich um eine opale Abdeckung legt, sind die wesentlichen Bestandteile dieses Produkts. Eine minimale, aber gleichzeitig raffinierte Wandleuchte, bei der das leuchtende Herz verborgen und bewacht wird, um erst beim Einschalten enthüllt zu werden. Die Farbvariationen und die beiden Dimensionen, in denen sie vorgeschlagen werden, verwandeln Volvit in ein grafisches Zeichen, das in der Lage ist, Wohn- und Nichtwohnwänden Dynamik zu verleihen, was es sowohl für zeitgenössische Räume als auch für eher klassische Umgebungen geeignet macht.

# Basalt

design by C. Cattaneo

Una stratificazione di livelli geometrici costituisce la forma della lampada Basalt, plafoniera in grado di mimetizzarsi nello spazio ma allo stesso tempo di arricchirlo con una tridimensionalità inattesa. Concepita assemblando elementi geometrici primari, Basalt produce una luce indiretta e trasforma la superficie in cui viene installata in diffusore capace di illuminare lo spazio in modo omogeneo ed elegante, creando sempre un'atmosfera adatta ad ogni esigenza.

A stratification of geometrical layers makes up the shape of Basalt, a ceiling light able to camouflage itself in the space, but at the same time to enhance the environment with an unexpected three-dimensional effect. Basalt has been conceived assembling primary geometrical elements. It casts an indirect light that turns the surface into a diffuser able to illuminate the space homogeneously and gracefully, creating the perfect atmosphere for all needs.

Eine Schichtung geometrischer Ebenen bildet die Form der Basaltlampe, einer Deckenleuchte, die sich im Raum tarnen, aber gleichzeitig mit einer unerwarteten Dreidimensionalität bereichern kann. Basalt wurde durch die Montage von primären geometrischen Elementen entwickelt, erzeugt indirektes Licht und verwandelt die Oberfläche, in der es installiert ist, in einen Diffusor, der in der Lage ist, den Raum homogen und elegant zu beleuchten und immer eine für jeden Bedarf geeignete Atmosphäre zu schaffen.

# Ninfea

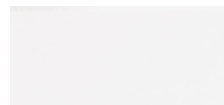

design by C. Cattaneo

Una sovrapposizione di forme curve compone questa lampada che, come le foglie di una ninfea, si appoggia leggera sulla superficie in cui viene installata. Ninfea emana una luce indiretta che illumina gli spazi con morbidezza creando dinamiche atmosfere chiaroscurali grazie alla possibilità di aumentare o diminuire l'intensità di luce emessa. La sua presenza non invasiva permette a Ninfea di dialogare con l'ambiente circostante divenendo parte integrante dell'interior design. Un prodotto con tecnologia led che coniuga qualità, design e artigianalità.

This light is made up of an overlapping of curved shapes that, as the leaves of a water lily, lean lightly into the surface on which they are installed. Ninfea releases an indirect light that enlightens the space with softness, creating dynamic light and dark atmospheres, thanks to the chance of increasing and decreasing the intensity of light. Its non-invasive presence, allows Ninfea to converse with the surrounding environment becoming integral part of the interior design. A product with LED technology combining quality, design and craftsmanship.

Eine Überlagerung von geschwungenen Formen bildet diese Lampe, die wie die Blätter einer Seerose leicht auf der Oberfläche liegt, auf der sie installiert ist. Ninfea emittiert ein indirektes Licht, das die Räume weich ausleuchtet und dank der Möglichkeit, die Intensität des emittierten Lichts zu erhöhen oder zu verringern, dynamische Hell-Dunkel-Atmosphären erzeugt. Seine nicht-invasive Präsenz ermöglicht es Ninfea, mit der Umgebung zu kommunizieren und wird so zu einem integralen Bestandteil der Innenarchitektur. Ein Produkt mit LED-Technologie, das Qualität, Design und Handwerk vereint.

design by C. Cattaneo

Lampada da parete, sospensione, plafone e tavolo in metallo verniciato in diversi colori. Dal design essenziale i modelli biemissione e monomissione a parete permettono una diversa illuminazione dell'ambiente. Da oggi la versione mono emissione a parete viene integrata da un meccanismo che consente di ruotare la lampada a seconda delle esigenze funzionali.

Wall lights, pendant lights, ceiling lights and table lights in metal, painted in several finishes. With an essential design, double and mono emission models give the chance to enlighten the environment in different ways. The mono emission variation has now been equipped with a mechanism that allows to rotate the fitting according to any functional need.

Wandlampe, Hängelampe, Deckenleuchte und Tischleuchte aus lackiertem Metall in verschiedenen Farben. Mit ihrem wesentlichen Design ermöglichen die Modelle Bi-emission und Wandaufbau Monomission eine unterschiedliche Umgebungsbeleuchtung. Ab sofort wird die Single-Emissions-Wandversion durch einen Mechanismus ergänzt, mit dem Sie die Lampe nach funktionalen Bedürfnissen drehen können.

# Spin

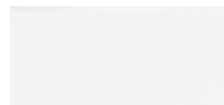

design by C. Cattaneo

Da sola, o con le sue sorelle, per stupire con giochi di luce di cui si arricchisce il polycarbonato trasparente una volta illuminato.

Spin è una lampada a forma cilindrica che ti farà girare la testa, la sua voglia di stupire illuminerà anche le tue giornate più buie.

Alone or with its sisters, once the clear polycarbonate is illuminated, Spin will embellish with impressive play of light. Cylindrical in shape, Spin is a light that will make your head spin. Its desire to impress will make even your darker days brighter.

Allein oder mit ihren Schwestern, mit Licht zu überraschen, die Transparente Polycarbonat wird verstärkt, wenn beleuchtet ist. Der Spin ist eine zylindrische Lampe, die Ihren Kopf verdrehen wird, seinen Wunsch ist es dich stets zu überraschen, auch in Ihre dunkelsten Tage.

# Bambù

design by C. Cattaneo

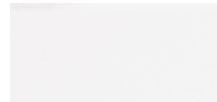

Originale lampada da terra e da sospensione ispirata alla pianta del bambù. E' una lampada di vetro bianco latte satinato con luce a LED.

La sospensione presenta due varianti di forme per diverse esigenze d'arredo.

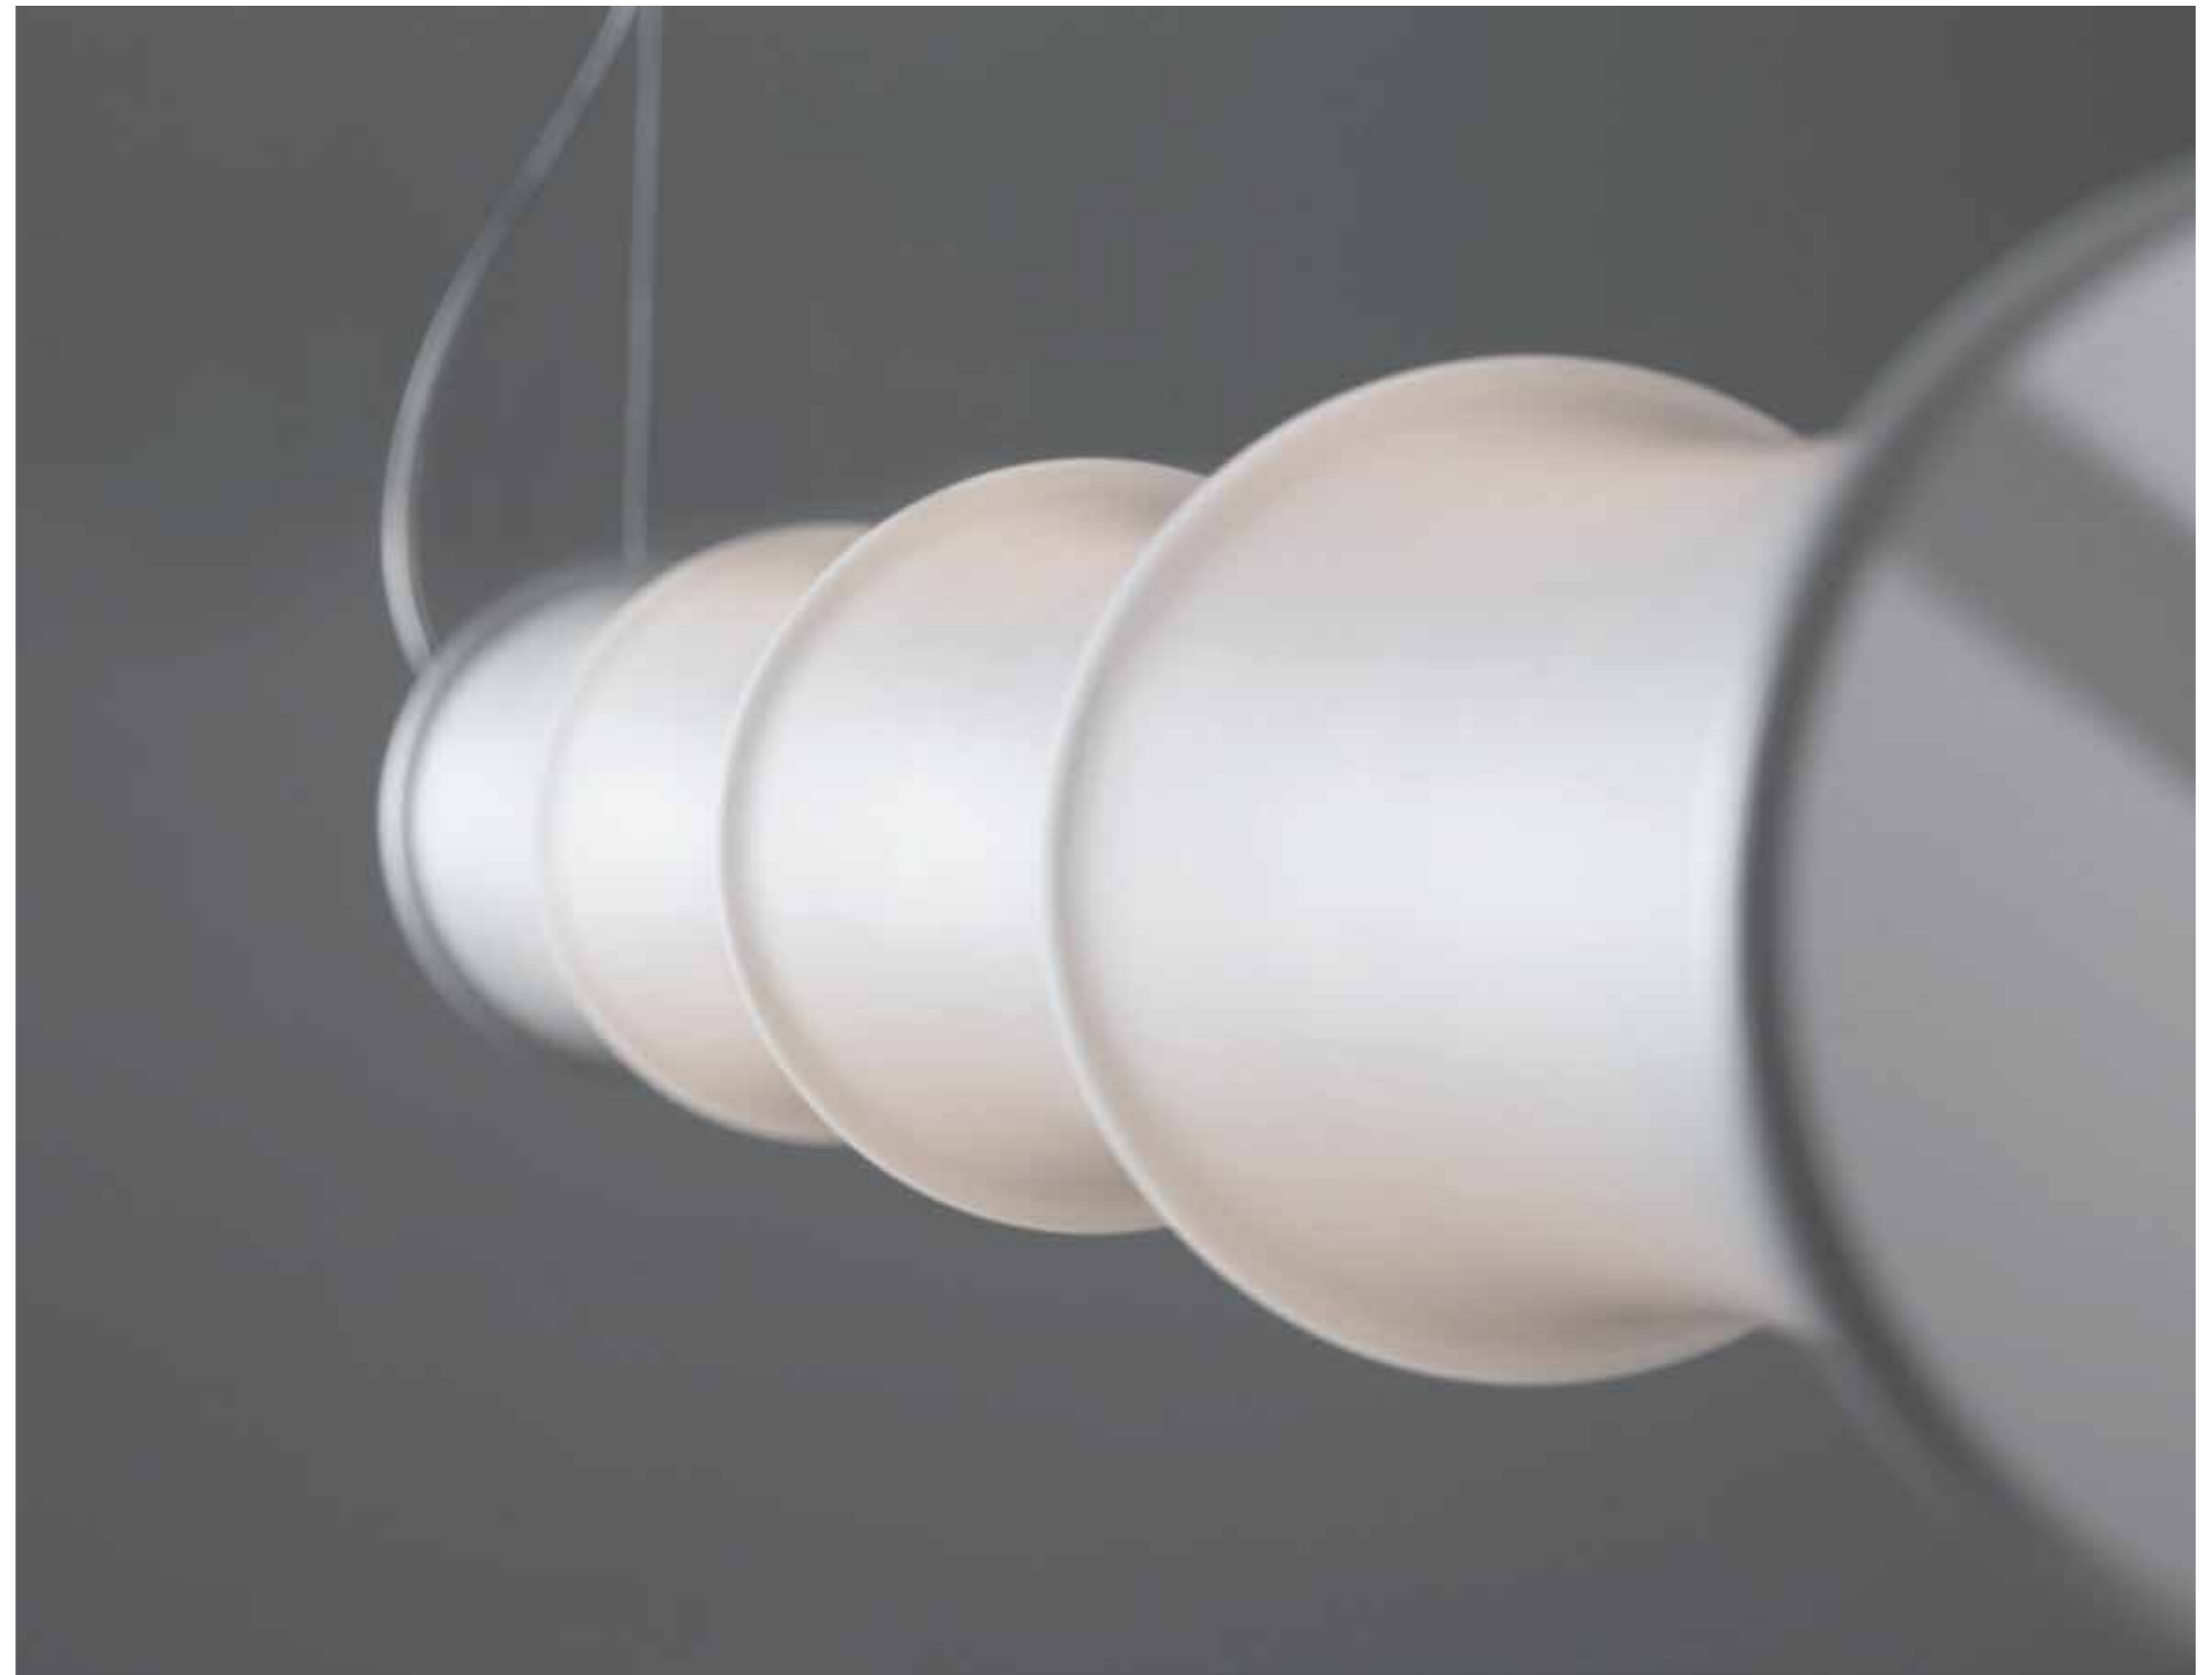

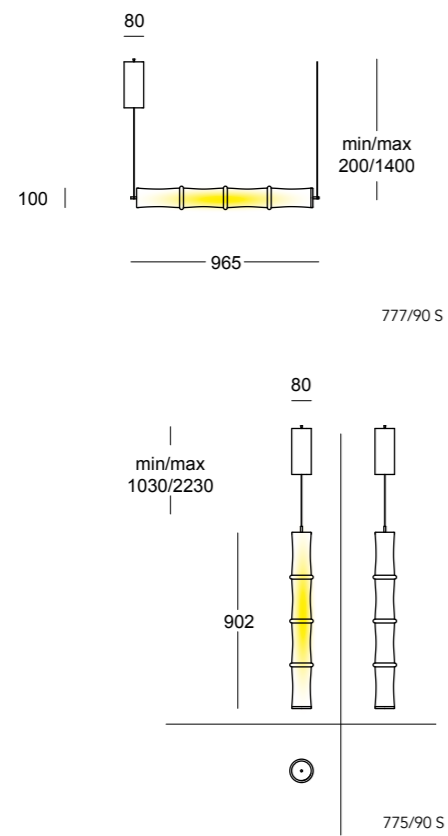

Original floor and suspended lamp inspired by bamboo plants. Matt milky-white fixture with LED light. Available in two different shapes for multiple interior designs.

Originelle Stehleuchte und Hängeleuchte, inspiriert von der Pflanze Bambus. Es ist eine milchig-weiße satinierte Glaslampe mit LED-Licht. Die Hängeleuchte hat zwei verschiedene Formen für unterschiedliche Einrichtungsbedürfnisse.

design by C. Cattaneo

Un inconsueto modello di lampada da parete, da sospensione, da soffitto e da tavolo per caratterizzare in modo diverso l'arredo d'interni. Come tutti i modelli anche quello da tavolo sembra un soffice oggetto da accarezzare.

An unconventional wall, suspended, ceiling or table lamp that gives a unique touch to the interior. In the same way as the other versions, also the table lamp evokes a feeling of softness.

Ein ungewöhnliches Modell als Wandleuchte, Hänge-, Decken- oder Tischlampe kann die unterschiedlichen Arten der Inneneinrichtungen charakterisieren. Wie alle Modelle auch die Tischlampe bietet den Eindruck eines weichen Objektes zum Streicheln.

# Mercury

design by C. Cattaneo

Il vetro soffiato bianco latte è il punto dal quale scaturisce la luce che pervade tutto l'ambiente. La struttura è in metallo disponibile nel colore bianco.

A light pervading all the interior shines from milky-white blown glass. The structure is in white painted metal.

Das milchig weisse, mundgeblasene Glas ist der Faktor damit das gesamte Ambiente von Licht getraenkt wird. Die Struktur ist aus Metall , verfuegbar in den Farben Weiss.

## Design Materiali Funzionalità

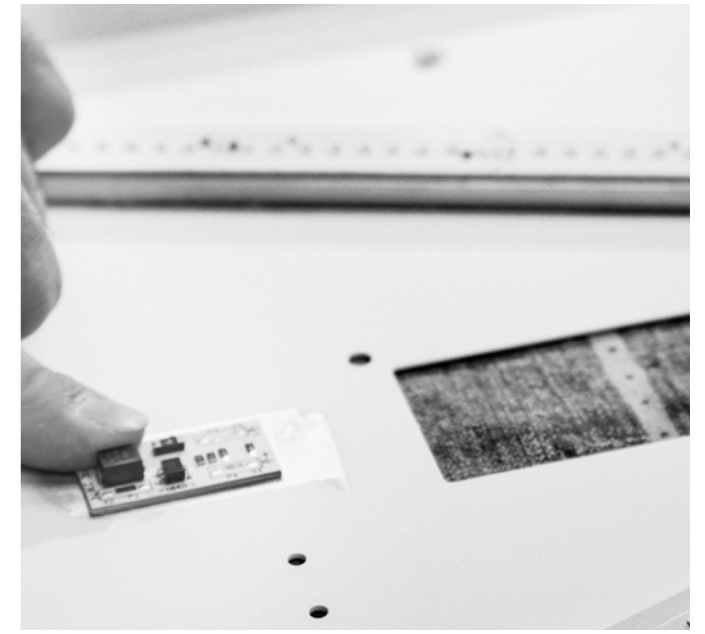

Design • Materials • Functionality  
Design • Materialien • Funktionalität

L'innovativa ricerca di materiali con i propri collaboratori personalizza i prodotti, aiutando il cliente in una scelta mirata al proprio stile. Alta qualità e buon Design Italiano caratterizzano il team di artigiani che collaborano con Cattaneo Illuminazione progettando con eleganza lo "Spazio illuminazione" per trasformare il lavoro in un vero e proprio laboratorio di idee.

The innovative research for materials in cooperation with its own partners personalizes the products, helping customers choosing the most suitable fitting for their style. High quality and good Italian Design distinguish the team of artisans cooperating with Cattaneo Illuminazione for the elegant design of the "Lighting Field", to transform work into a real ideas' studio.

Unsere Mitarbeiter bemühen sich stets um neue Materialien und innovative Forschung um den Kunden eine bestmögliche Auswahl zu bieten. Hohe Qualität und ein gutes Design wurden vom italienischen Team von Handwerkern charakterisiert. In der Zusammenarbeit mit der Entwicklung von Fa. Cattaneo Illuminazione wurde mit viel Eleganz ein Lichtraum erschaffen.

Le tecnologie ci aiutano a vivere i nostri attimi quotidiani e anche nell'illuminazione la ricerca e lo sviluppo di nuovi sistemi illuminanti ha permesso a Cattaneo Illuminazione di creare e ottimizzare nuovi apparecchi, attenti, non solo alle esigenze del mercato, ma anche alla giusta relazione tra persona, ambiente e corretta visione della luce.

La sinergia tra creatività e tecnologia ha potuto creare lampade a basso consumo energetico e a LED con alte prestazioni illuminotecniche, che grazie all'utilizzo di schermi protettivi e alla ricerca nella disposizione del bulbo illuminante, permettono un'ergonomica e corretta illuminazione nell'ambiente.

Da oltre quarant'anni, Cattaneo Illuminazione propone creazioni che scaturiscono dalla fantasia e dalla manualità di qualificati artigiani italiani. La ricerca estetica, l'attenta selezione dei materiali, accurata esecuzione

Technology helps us in our daily lives; as for lighting, research and development have allowed Cattaneo Illuminazione to design and optimize new light fixtures aimed at meeting the needs of the market, as well as providing people and interiors with suitable lighting solutions. Synergy between creativity and technology has led to the design of low-energy and LED, high-performance lamps, fitted with appropriate screens and specially-positioned bulbs so as to ensure a suitable ergonomic interior lighting.

For over forty years, Cattaneo Illuminazione has been offering lighting creations arising from the imagination and craftsmanship of skilled Italian artisans. Aesthetic research, careful selection of materials and accurate finishes are combined to offer top quality products, exclusively made in Italy and Europe.

Technologien helfen unsere alltaeglichen Momente zu leben, das gilt auch fuer die Beleuchtung die durch Forschung, Entwicklung und Ausruestung neuer Beleuchtungssysteme von Cattaneo Illuminazioni nicht nur auf die Marktbeduefnisse sondern auch auf die Beziehung zwischen Mensch, Umwelt und die richtige Vision von Licht konzipiert sind. Durch die Sinergie von Kreativitaet und Technologien ist es gelungen, energieeffiziente Lampen und LED Beleuchtung mit hoher Leistung, ausgestattet mit einer Schutzscheibe und der richtigen Anordnung der Gluehbirne, eine optimale Beleuchtung und ergonomische Umwelt zu ermoeeglichen.

Seit über vierzig Jahren bietet Cattaneo Illuminazioni, Kreationen, welche aus der Phantasie und Kunstfertigkeit des Italienischen Handwerk, entstehen. Das Aussehen, die sorgfältige Auswahl der Materialien, präzise Ausführungen, all dies ermöglicht es uns, qualitativ hochwertige Produkte anzubieten,

delle finiture: tutto ciò consente di offrire prodotti di alta qualità, che vengono sempre realizzati esclusivamente in Italia ed in Europa.

Con l'esperienza e l'organizzazione Cattaneo Illuminazione offre un full-service all'installatore o architetto, in modo tale che questi possano arricchire e integrare nel proprio progetto maggiori informazioni per i loro clienti. La velocità del customer services è lo strumento preferito dalla Cattaneo illuminazione per poter creare un rapporto di fiducia e professionalità con il cliente, ed è proprio da questo atteggiamento che scaturiscono idee e progetti interessanti soprattutto nell'ambito della fornitura di hotel, open space e grandi installazioni.

L'entusiasmo di Cattaneo illuminazione vuole essere: "La scintilla di creatività che dall'Italia illumina il mondo".

Thanks to its experience and organization, Cattaneo Illuminazione can provide architects and installers with a full service, including extensive project and technical support. A prompt customer service is of utmost importance for Cattaneo Illuminazione to establish a trustworthy, professional relationship with its customers, which is the basis of interesting ideas and projects, especially as far as hotels, open spaces and large installations are concerned.

Cattaneo Illuminazione is the spark of Italian creativity that lights up the world.

die ausschliesslich in Europa und Italien hergestellt werden.

Basierend auf die Erfahrung und der Organisation bietet Cattaneo Illuminazione einen umfassenden Service fuer Installateure und Architekten, damit deren Kundenprojekte entsprechend bereichert, sowie mit mehr Informationen entsprechend integriert werden koennen. Die Geschwindigkeit und ein ausgepraegter Customer Service ist fuer Cattaneo Illuminazioni, der entscheidende Aspekt, eine professionelle Vertrauensbasis mit den Kunden zu schaffen, um Ideen und interessante Projekte, vor allem in der Ausstattung von Hotel, Freiflächen und großen Installationen, zu entwickeln.

Ein Funken an Kreativitaet welcher von Italien aus die Welt beleuchtet entspricht dem Entusiasmo von Cattaneo Illuminazioni.
